Integrated Acquisition Environment E-Gov Initiative

IAE Monthly Update—September 27, 2004

Vision:

A secure business environment that facilitates and supports cost-effective acquisition of goods and services in support of mission performance.

Goals:

- Create a simpler, common integrated business process for buyers and sellers that promotes competition, transparency and integrity.

- Increase data sharing to enable better business decisions in procurement, logistics, payment and performance assessment.

- Take a unified approach to obtaining modern tools to leverage investment costs for business related processes.

IAE Business Areas and Objectives

- **Business Partner Network (BPN)—** Deploy a single point of registration and validation of supplier data accessed by all agencies.
- **Acquisition Information Reporting (AIR)—**Implement a central point for consolidated collection and access of statistical and management information related to government acquisitions.
- **eMarketplace**
  Phase 1: Provide a common on-line directory to GWAC and other multi-agency contracts to simplify selection and facilitate leverage of Government buying.
  Phase 2: Centralize and integrate market research and acquisition tools by providing access to, federal and open market eCatalogs, solicitations/responses, and small business opportunities to facilitate buying across the federal government.
- **Intra-government Transactions (IGT)—**Transform intra-governmental ordering and billing, reduce payment and collection problems, and enable swift and accurate revenue and expense elimination processes for preparing consolidated financial statements.
- **Standard Transactions—** Develop a standard glossary and vocabulary to facilitate exchange of procurement data between and within agencies.

Integrated Acquisition Environment E-Gov Initiative

IAE Monthly Update—September 16, 2004

Recently, the Acquisition Committee for E-Gov (ACE)--a sub-set of the Chief Acquisition Officers Council and the governing body of IAE-- met to approve the FY 2005-2006 budget. In light of resource constraints within the agencies that are the source of IAE funding, decisions were made to adjust the schedule and scope of the initiative. After a careful analysis including an evaluation of the existing systems' value to the front line and whether or not the systems were required by statute or regulation, with the endorsement of the CAO Council, the ACE made recommendations that are summarized on page 1.

Governance:

- Chief Acquisition Officer Council and OMB

- Managing Partner—General Services Administration/CAO

- ACE (Acquisition Committee for eGov) - GSA, CFO and CIO Council, OMB Portfolio Manager, OFPP, Small Agency Council, 6 Agency Procurement Executives
